Election Map - Presidential Race Map
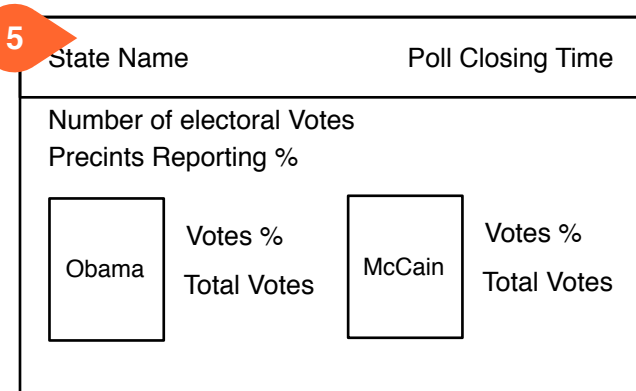

10.09.2008

Presidential Race Tab

1 - **Header**. Page title and main navigation. Persistent in all maps.

2 - **Map**. Show states in gray if no projection has been made. After a projection, the state changes color to red or blue.
Hover on a state shows "State Bubble".

3 - **Progress Bar.** Shows electoral votes for states with projections. Each bar "slice" corresponds to a state. As projections are made, "slices" are added to bar. "Slice" widths are proportional to number of electoral votes.
Hover on "slice" shows "State Bubble".

4 - **Map tag**. Map data is updated every minute. If a state data has changed, a map tag appears with state name and updated vote percentages.

President | Senate | House | Governor | Poll Closing

State Name | **Poll Closing Time**

Number of electoral Votes
Precints Reporting %

Obama | Votes %
Total Votes

McCain | Votes %
Total Votes

State Name | **Poll Closing Time**

Number of electoral Votes
Precints Reporting %

Obama | Votes %
Total Votes

McCain

Projected Winner: Candidate Name

5 - **State Bubble** (before projection)
Data on each state bubble is updated every minute:
Number of Precincts Reporting (percentage)
Number of votes (percentage)
Number of total votes
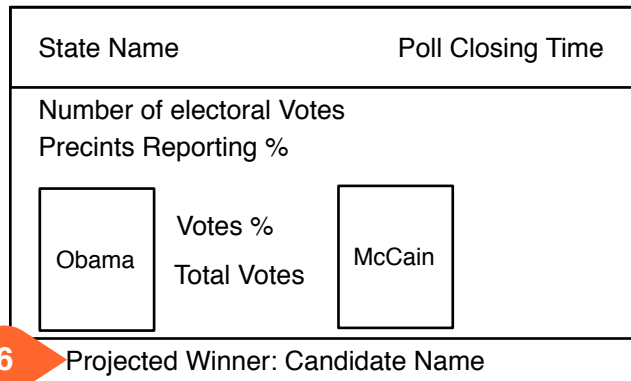

6 - **State Bubble** (after projection)
Data on each state bubble is updated every minute.
Number of Precincts Reporting (percentage)
Number of votes (percentage)
Number of total votes
After a projection, the state bubble shows the projected winner on top of a colored band (blue or red).

# Election Map - Presidential Race Map - on hover, on click

10.09.2008
